Brief Summary

Software Engineer with expertise in C++, Python, React.js, FastAPI, LangChain, MySQL and Retrieval-Augmented Generation (RAG) experienced in developing full-stack web applications. Strong foundation in data structures, REST APIs, and modern software development practices.

Technical Skills

Programming Languages: Python, C++, JavaScript

Backend: FastAPI, Express.js, SQLAlchemy, REST APIs

Frontend: React.js, Tailwind CSS

Databases: SQL, MySQL, PostgreSQL, Pinecone, Chroma

Generative AI: RAG, LangChain, LangGraph, Embeddings, Hugging Face, Vector Databases, LLM Integration

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms

Developer Tools: Git, GitHub, Postman

Experience

LTIMindtree — Consultant Package Implementation

Aug 2025 — Till Now

- Worked on developing a RAG-based Question and Answer chatbot.
- Developed and integrated REST APIs for conversation management, including creating, retrieving, and managing user conversations and messages.
- Built document upload and processing APIs as part of the RAG pipeline, handling document ingestion and preparation for retrieval.
- Worked with SQLAlchemy for database models and operations.

Projects

PlantGuard

[GitHub](#) Feb 2025

Tech stack used: React.js, Express.js, MongoDB, Tailwind CSS, REST API, Flask, Machine Learning

- Web application designed to identify plant name and disease name, and provide prevention methods, cures, and causes.
- Developed Express.js backend for community forum, disease library, and authentication using JWT.
- Contributed to frontend by implementing text-to-speech functionality.

Knowledge Nest *(Have a Look!)*

[GitHub](#) Jun 2024

Tech stack used: HTML5, CSS3, React.js, Express.js, MongoDB, Tailwind CSS

- Developed a dynamic blog website for publishing blogs and uploading images.
- Implemented user engagement features like likes and comments.
- Demonstrated full-stack development proficiency.

Newsi *(Have a Look!)*

[GitHub](#) Mar 2024

Tech stack used: HTML5, CSS3, Tailwind CSS, React.js, REST API

- Created a user-friendly news application using React.js, Tailwind
- Implemented real-time news updates from API and also enabled users to search various news based their interests.

Education

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune

2021 – 2025

BE Computer Engineering, Savitribai Phule Pune University

CGPA: 9.14/10

Certificates and Achievements

Solved 400+ problems on **LeetCode** and earned both the 100 Days and 365 Days badges. *(view profile)*

Solved 100+ problems on **GeeksforGeeks (GFG)** *(view profile)*.

React.js Course, Infosys Springboard *(Certificate)*

Mastering REST APIs with FastAPI - Coursera *(Certificate)*

Introduction to Retrieval Augmented Generation (RAG) - Coursera *(Certificate)*

Fundamentals of AI Agents Using RAG and LangChain - Coursera *(Certificate)*
